REPOSABLE LAPAROSCOPIC INSTRUMENTS

Precision  
and **security** in  
the palm of your hand.

# ReNew

REPOSABLE LAPAROSCOPIC INSTRUMENTS

Reduce cost and waste while optimizing surgical outcomes

The ReNew IV handpiece provides a more substantial and responsive tactile experience than disposable plastic instruments. Microline Surgical's ReNew technology pairs an ergonomic, high quality, reusable handpiece with a single use scissor, grasper, or dissector tip. High precision features allow for the tips to mimic the surgeon's handle action. The handpiece and tips create a system unsurpassed in precision, performance, and reliability.

- Available in 25, 34 and 42cm shaft lengths
- Designed to fit any Microline scissor, grasper and dissector tip
- Single-use scissor tips provide surgeons with the sharpest blades for every procedure
- Made in the USA

**Monopolar cautery pin with flushport allows high-flow inner lumen flushing for fast, safe, and effective cleaning**

**Removable cautery cap doubles as a flushport luer cover**

**Comfortable single-handed 360° rotation knob**

**High dielectric strength PEEK™\*\* shaft material**

**Optional, easy ratchet for right or left handed operation**

**Removable, reusable ring inserts for custom fit and comfort**

**Patented coaxial threading features two sets of interlocking threads for superior tip security**

### Delicate Metzenbaum

Disposable

REF ML3162

## Super-Atrau Graspers

Single Use: 10 per box

- Significantly reduces the risk of tissue tears and perforations
- The soft insert absorbs force instead of the tissue
- Non-latex padding

### Atrau Grabber

Our most versatile all-purpose Atraumatic grasper with polymer pads.

Disposable

REF ML3622

### Atrau Modified Raptor

Distinctive jaw pattern with polymer pads provides a secure grip on soft tissue.

Disposable

REF ML3632

### Atrau Fenestrated

Fenestrated jaws with polymer pads. Excellent for blunt dissection.

Disposable

REF ML3642

### Atrau Short Grabber

Short design combined with polymer pads.

Disposable

REF ML3652

# Control Tip Graspers

Single Use: 10 per box

## Disposable Cobra Tooth

Small, very aggressive distal teeth ensure fixation of tissue that is intended to be excised.

Recommended for all laparoscopic procedures requiring secure grasping. Recommended for use with ratcheting, locking ReNew handpieces..

Disposable

REF ML3412

## Disposable Grabber

Full length aggressive teeth allow for secure grasping of larger tissue structures.

Recommended for gynecologic and colorectal laparoscopic procedures.

Recommended for use with ratcheting, locking ReNew handpieces.

Disposable

REF ML3242

## Lapclinch

Microline's answer to the most popular disposable grasper patterns. Larger serration at tip and recessed proximal area.

Disposable

REF ML3252

## Fenestrated

Fenestrated and grooved slot to allow for strong yet gentle grasping.

Disposable

REF ML3222

## Long Fenestrated

Longer jaws promote atraumatic grasping and manipulation of bowel, stomach and mesentery. Slotted with micro-serrations.

Disposable

REF ML3262

## Modified Traditional Babcock

Traditional pattern with larger grasping pads to permit more secure, gentle grasping of delicate tissues.

Disposable

REF ML3272

## Modified Raptor

Our most versatile all-purpose grasper. Beveled edges and a capture box permit secure, atraumatic hold.

Disposable

REF ML3292

## 5mm Babcock

Traditional pattern with smaller grasping pads for use on the most delicate tissue.

Disposable

REF ML3302

## Allis Graspers

Single row of Allis teeth with a serrated jaw.

Disposable

REF ML3372

## 10mm Babcock

Traditional design with larger jaws provides greater grasping and manipulation of the most sensitive tissues. Requires a 10mm trocar.

Disposable

REF ML3382

## Traditional Grasper

A bullet nose jaw with closely fitting distal teeth and toothed proximal recesses for grasping and manipulation of moderately bulky tissue.

Recommended for bariatric and general laparoscopic procedures. Recommended for use with ratcheting, locking ReNew handpieces.

Disposable

REF ML3202

## Modified Traditional

A longer bullet nose jaw with closely fitting distal teeth and toothed proximal recesses for grasping and manipulation of moderately bulky tissue. Recommended for gynecologic and colorectal laparoscopic procedures. Recommended for use with ratcheting, locking ReNew handpieces.

Disposable

REF ML3232

## Micro Fenestrated Grasper

Full radius tip, tapered entry fenestrated jaws allow for wide dissection and secure grasping. Recommended for gynecologic and colorectal laparoscopic procedures. Recommended for use with ratcheting, locking ReNew handpieces.

Disposable

REF ML3402

## Disposable Hunter

Full length Debakey-style teeth provide secure yet atraumatic grasping while manipulating delicate tissue. Recommended for bariatric and general laparoscopic procedures. Recommended for use with non-ratcheting, non-locking ReNew handpieces.

Disposable

REF ML3362

# Control Tip Dissectors

Single Use: 10 per box

- Fully insulated over the hinge for coagulation
- Flush hinge design for precise dissection, increased visibility, and response

## Dolphin Nose

Traditional tapered dissector pattern with micro-serrations at the tip. Wider opening jaws. Slightly longer for increased versatility. Recessed smooth proximal area. Insulated over the hinge.

Disposable

REF ML3312

## Modified Maryland

A slender jaw design with micro-serrations and a pronounced angle at the tip allows for more delicate tissue manipulation.

Disposable

REF ML3322

## 5mm Right Angle

True right angle for wide tissue spread and dissection around delicate structures.

Disposable

REF ML3332

## 10mm Right Angle

Extra tip length for greater visibility. Requires a 10mm Trocar.

Disposable

REF ML3342

## Traditional Maryland

Gentle curve with tapered, serrated jaws. Effective for suture grasping and knot tying.

Disposable

REF ML3352

## Micro Dissector

Duck Bill Dual bevel entry, small jaws and teeth allow for precise dissection and enhanced visibility. Recommended for bariatric and general laparoscopic procedures. Recommended for use with non-ratcheting, non-locking ReNew handpieces.

Disposable

REF ML3472
