# YELLOPORT + PLUS

Resposable™ Laparoscopic  
Port Access System

## COMPLETE SYSTEM

- Offering high quality products manufactured in the United Kingdom
- Lightweight in construction
- Choice of luer, non-luer or stopcock fittings
- Easy instrument insertion
- Advanced polymeric materials and silicone valve technology for low friction and sealing performance

- Micro-thread FrictionFinish™ for enhanced abdominal wall retention
- Cost efficiencies for healthcare facilities
- Minimal environmental impact
- Fully autoclavable to 134°C
- Two year warranty

## YelloPort+Plus™

- Has received worldwide acclaim.
- In acknowledgement of the product's technical and clinical excellence, it was awarded the prestigious Queen's Award for Enterprise within the category of Innovation

- Available in 3mm and 5mm diameter and a range of lengths, this pioneering device caters to the needs of surgeons.
- Surgical Innovations instruments are designed and manufactured in the United Kingdom to the highest quality specifications.

# YELLOPORT ELITE™

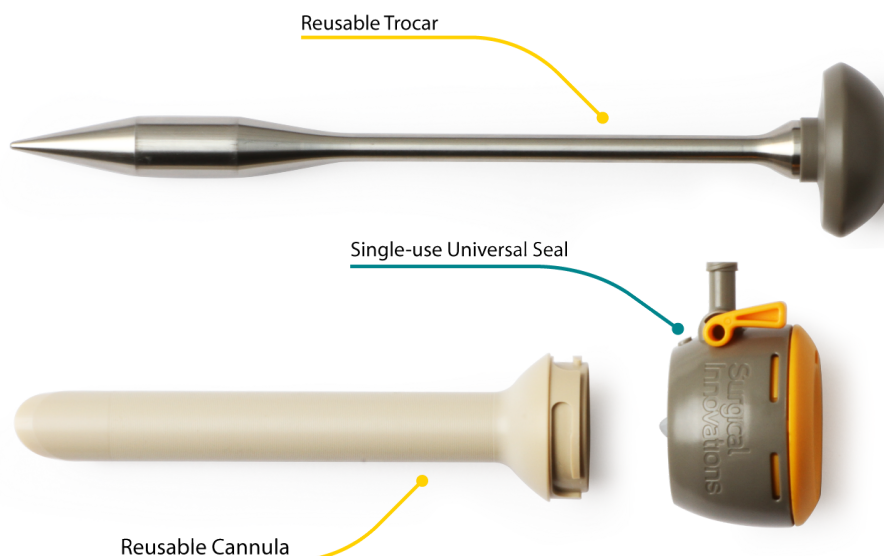

Responsible™ Laparoscopic  
Port Access System  
Universal Seal

- Lightweight, micro-threaded cannula for enhanced abdominal wall retention
- Easy instrument insertion
- Full range of obturators available
- Obturators and cannulae are easy to clean and are fully autoclavable to 134°C
- Two year warranty
